I've made some suggestions on formatting for the subpart W part. I didn't like the way the requirements for the different types of facilities were broken up on slides 6-7, so restructured a bit to have them all on one slide. Also added some on the comments/public hearing slide (with a comment). New or reformatted text is generally in red. Feel free to disregard on grounds of ignorance.

Andrea and I have put together a 20 minute presentation for the NMA/NRC meeting.
